

# How to Organise Homework

## What's for homework?

Make sure you write down clearly what your homework is. If you're not sure, check the form homework planner or ask the teacher who set it.

## When should I give it in?

Write in your planner when the work is due in. Check your planner every evening to make sure you have time to complete it.

## Who can help me?

Teachers, parents, older brothers and sisters, grandparents, friends, librarians, etc. Any of these people could be valuable sources of information.

## Where else can I get information?

Books, magazines, newspapers, television, radio, computer databases and CD ROMS, the Internet, etc. You could use any of these to get useful information.

## Where should I do my homework?

Try to find a quiet place with no distractions. This could be at home or at school. The Resource Centre is open before and after school for homework purposes.

## Remember:

- Students who regularly complete homework are more successful in exams.
- Presentation is important. Always do your homework as carefully as you can.
