

Information and Communication Technology Key Words

Presenting Information

animate	image capture	sound
attribute	multimedia	vector
audience	presentation	software
bitmap	purpose	

Sources of Information

browse	relevant	URL (uniform resource locator)
identify	reliable	viewpoint
index	sample size	
information source	search engine	

Modelling

cell	formula	predict
cell reference	formulae	rule
column	graph	value
data	label	variable
format	paste	

Control and Monitoring

automatic	logic	start
control	output device	stop
decision	procedure	sub routine
flowchart	program	sub task
If...Then	repeat process	switch
input device	sequence of instructions	system loop

Handling Data

accurate	database	pie chart
alpha-numeric	enquiry	questionnaire
bar chart	field	record
classify	hypothesis	search method
data structure	interrogate	sort
data type	numeric	table

Information and Communication Technology Key Words

Making a leaflet

bitmapped image	import	logo
corporate image	landscape	portrait
crop	layering objects	resize
design brief	layout	transfer

Information:Reliability,Validity and Bias

accuracy	internet	relevant
accurate	key word	reliable
AND	locate	search engine
bias	navigate	URL (uniform
evaluate	NOT	resource locator)
fit for purpose	opinion	valid
hits	OR	web page
information source	plausible	website
intended	audience query	WWW (world wide
		web)

Web page design

accurate	heading	relevant
analogue	home page	rollover menu
bandwidth	hyperlink	search engine
bias	hypertext	san serif
body text	html (hypertext	serif
broadband	mark-up language)	style sheet
criteria	ISDN (integrated services	subheading
dial up	digital network)	table
digital	tags	download
internet	title	efficient
layout	URL (uniform resource	extension
logo	locator)	file size
modern	web browser	fit for purpose
navigate	web page	font
page layout	website	font size
readability	white space	

Information and Communication Technology Key Words

Models and presenting numeric data

accuracy
absolute cell reference
assumption
axes
cell
cell reference
chart
column
copy
drag
fill down
fill handle
Year 9

formula
formulae
function
goal seek
graph
gridlines
label
model
numeric data
paste
prediction
random number

random number
generator
relative cell reference
replicate
row
rule
simulation

table
variable
what if?

Integrated Task System

system life cycle
analyse
analysis
design
implement
implementation
test
testing
evaluate
evaluation

general

annotate
appraise
audience expectation
feasible
intended audience

advertising

corporate image
flyer

marketing

Charts

drug run
flowchart
Gantt chart
sequence of instructions

Database

field
record
data type
mail merge

financial model

absolute cell
referencing
forecast
formulae
goal seek
modify
relative cell referencing

rule
variable

Control

analogue
automate
continuous
data logging
efficiency
live data
monitor
physical data
remote data logging
remote sensor
repeated process
repetitive
sample rate
sensor
subroutine
subtask
threshold

Information and Communication Technology Key Words

Video Editing

capture
collections
edit
export
post-production
scene
script
special effects
storyboard
transition
